1. Status of the Refresher Course:

██████████ asked when Refresher Training would start. ██████████ pointed out the priority given to revising Phase III instruction and emphasized that the efforts spent on the development of Phase III could serve the dual purpose in making ready for a Refresher Course. There is still a need to obtain instructor personnel. With one good person to start the course it was estimated that the Refresher program could get underway in the Fall. Mr. Baird suggested that the problem of Refresher training should be taken up within OTR.

2. Substantive Nature of the New CE Courses:

██████████ stated that an announcement of the two CE courses was being prepared for release next week. It was noted that ██████████ and ██████████ had been previously holding off the detailed announcement and course schedule pending more word on the actual availability of ██████████. The group was advised by ██████████ that each of the courses was to be two-weeks in length.
